EDUCATION

Thapar Institute of Engineering and Technology Aug 2023 – Jul 2027
Bachelor of Engineering, Computer Science Engineering CGPA: 8.87 / 10.0
Relevant Coursework: *Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks, Parallel Computing*

ACHIEVEMENTS

- **Codeforces Expert** — Max Rating: 1687
- **2100+ DSA Problems Solved** — Codeforces, LeetCode, and CodeChef
- **Runner-Up, SPHINX'24 Hackathon**, MNIT Jaipur — 2500+ individual registrations
- **Merit Scholarship, Thapar Institute** — awarded for academic excellence (9.34 AGPA)
- **Runner-Up, Inter-College Coding Contest**, Thapar Institute

SKILLS

Languages: C++, Python, SQL
Backend & Databases: FastAPI, REST APIs, PostgreSQL, SQLAlchemy, Redis
Generative AI: RAG, Embeddings, Vector Search, Retrieval Evaluation, LangGraph
Tools: Git, Docker, Linux, Prometheus, Grafana

TECHNICAL PROJECTS

DeliverIQ | Distributed Order Dispatch API [GitHub] 2026
Python, FastAPI, PostgreSQL, SQLAlchemy, Redis, Kafka, Docker, Prometheus, Grafana

- Built a distributed order-dispatch API supporting multiple replicas and concurrent requests
- Used Redis for shared state and implemented a token-bucket rate limiter with atomic Lua execution to enforce request limits consistently across replicas
- Integrated Kafka for asynchronous order and dispatch events using consumer groups and at-least-once delivery
- Used PostgreSQL transactions and row locking to prevent concurrent double-assignment of orders

DocMind | Privacy-Aware RAG System [GitHub] 2026
Python, Streamlit, Sentence-Transformers, LLM APIs

- Built a document Q&A pipeline with local PDF parsing, local embeddings, and vector retrieval, generating grounded answers with page-level source citations
- Designed a deterministic privacy layer that detects sensitive entities and allows, redacts, or blocks retrieved context before external LLM calls, failing closed on detector errors
- Built an evaluation pipeline measuring retrieval with Recall@K separately from answer quality, alongside sensitive-entity recall and false positives on annotated documents

POSITIONS OF RESPONSIBILITY

Core Member, Creative Computing Society May 2024 – May 2026

- Led MLH-partnered HackTU 6.0 (500+ participants) and ran DSA workshops for 100+ students

Vice Head, Photography, FAPS Society May 2024 – May 2025

- Coordinated photography coverage and creative execution for society events

EXTRACURRICULAR ACTIVITIES

- **State-Level Football Player** (2022) and inter-college long jump representative
